---	-----------

I hereby certify to the correctness of this statement. Dated at Lomond this 2nd. day of April, 1919.

ANDREW W. TULLOCH,
Auditor.
R. N. SHIELDS,
Secretary-Treasurer.

Do not overlook the event of the season now before the public—the base ball basket supper and dance, to be held on Easter Monday, April 21st.

You will notice T. A. Kennedy is endeavoring to allay domestic eruptions and encourage industry in the front lot and back yard.

Seeding operations have become quite general and the weather has kept as favorable as could be expected.

By the way, they do grow some of the punkiest grass up in that north country that we ever saw called hay.

The Shortridge sale on Thursday was very successful, netting over four thousand dollars.

LOCALETS

The Peace Club is once again making an attempt to pull off a tea party, announcing Saturday, the 19th., as the date. The affair will be held in the Lomond Realty building. Aprons will be on sale as well as an assortment of cut flowers for Easter. The next meeting of the Club will be held at the home of Miss Bessie Bell, a couple of miles north of town.

G. W. Whitley has purchased the Petit quarter six miles east of town and is moving out on it.

A returned veteran by the name of Collins shipped in Monday by the extra train with two car loads of effects. He has taken up land on the edge of the Valley, just north of the Hornberger property.

George Porter is back with us again, having spent the winter in Ontario.

We are getting enough germination rain today to satisfy the most fastidious agriculturalist. We still hold out strong hopes for mushrooms and mosquitos.

The special U.F.A. speakers billed to appear in Lomond tonight are unable to be here on account of sickness. As it has worked out, it is perhaps as well, for the inclemency of the weather would have prohibited any attendance.

The 'flu epidemic seems to be again subsiding altho there are a few new cases reported. The entire McManus family are ill and unable to find help except what the neighbors are able to give them.

W. H. Smith and W. A. McDonald motored to Vulcan on Monday they reported the roads not too bad except through the valley.

Born, at Travers, on Saturday, April 5th., to Mr. and Mrs. T. C. Sufferen, a son.

In travelling over good many roads in different directions we find that there is a good bit of road dragging being done. But when nearing Lomond one would think that there was no such thing as a drag or grader. It is bad business to allow the new grades to become ruined through neglect, and it cannot be said that teams and men are not available.

Mrs. H. E. Branscombe came down from Calgary on Thursday to join her husband, who has opened a real estate office at Travers. Mrs. Branscombe is a sister of W. A. Teskey and visited in Lomond a couple of days on the way down.

Lloyd V. Perkins, son of Mr. and

R. R. Commission Orders Twice-a-Week Service

After a long drawn out fight on the part of the people effected and the railway company, a wire was received on Wednesday by the secretary of the Board of Trade advising that the Railway Commission was that day signing an order to provide we people with a twice-a-week train and mail service. It took better than three months to do it, but we have the satisfaction of knowing the accomplishment was effected a couple of months earlier than the railway company had intended.

H. H. Halladay, M. P., had been working on the case for some time and it is largely through his efforts at Ottawa that the order was put through at this date.

Mrs. P. C. Perkins of this district, arrived in Lemont on Monday, recently obtaining his discharge from Uncle Sam's army at Camp Lewis, Wasu. Mr. Perkins served through the Mexico campaign and then was transferred with the American forces overseas, seeing nearly a year of active service there. He was gassed twice and is now but slowly recovering from the effects of this. Naturally he has little use for the Heinies.

August Nieman is back from the coast, where he went last fall when shipbuilding was all the rage.

April 13th is Palm Sunday, and April 20th is Easter.

Good Friday being a holiday, THE PRESS will be published on Thursday of next week.

Lizzie Jensen has gone out to her country home for a week. She is uncertain as to whether she will return to her former position with Mrs. Armstrong.

The ladies are gratifying their passion for new spring hats over Salter's millinery display.

Rev. Bell drove to Vulcan last Friday taking across Mrs. J. Bell of Pincher Creek and his little daughter, who is now making her home at Pincher during her mother's illness.

A couple of provincial police spotters spent a day or two in town this week.

Parents having children coming six years before July and desiring to send them to school are asked to allow them to start right after Easter holidays, as the primary department is making arrangements for the introduction of a new class at that time.

How does your Dollar stand?

Spring Millinery

JUST IN! A range of Spring Millinery for ladies and children. Now is the time to get your Easter hat, while our stock is in good selecting shape. We can fit and suit one and all.

I.H.C. Makes Special Offer to Returned Vets

The officers of the International Harvester Company of Canada Ltd., have just announced the completion of arrangements with the Returned Soldier's Settlement Board wherby returned soldiers who take up land through the Settlement Board will be granted maximum discounts on International Harvester Company implements purchased. Several of the leading manufacturers of farm machinery have agreed to sell machinery to soldier-settlers at rock-bottom prices.

The sale of farm machinery to soldiers under the new plan will be handled entirely through the offices of the Settlement Board, these offices being located at Winnipeg, Regina, Edmonton, Saskatoon, Calgary, and Prince Albert, Sask, in the west.

Soldiers desiring to take up land and purchase necessary implements to put it on a paying basis in the shortest length of time, will file their application with the nearest Soldiers' Settlement Board office. On approval of the application by the supervisor, the applicant will be referred to a local implement agent in the community where he plans to settle. This agent will furnish the soldier with equipment called for and will take receipt for goods purchased. The agent makes his settlement with the manufacturer and soldier make settlement with the Returned Soldiers' Settlement Board.

In connection with service to farmers the I.H.C. maintains an Agricultural

Extension Department, the purpose of which is purely educational. This department, which is under the supervision of Prof. P. G. Holden, is neither connected with the advertising nor the selling end of the company, its activities being confined strictly to encourage better agriculture.

People of Great Britain and U. S. Still Saving

Though Fighting is Over

The people of the leading Allied countries who, under the pressure of the war began to save, fortunately have shown no marked tendency to discontinue since the actual fighting ceased. In the United States the per capita sales of War Savings and Thrift Stamps during December were about 83 cents.

In the United Kingdom during the week ending February 1, 2,308,810 War Savings Certificates were sold. More than 500,000 buyers took single or £1, Certificates. In a recent statement the National War Savings Committee of the United Kingdom says:—

"These figures prove that while a number of investors, including many wealthy people, buy larger denominations, the small investor, for whom these Certificates were primarily intended, continue to respond week by week, and five years hence will reap the benefit of the movement, which, originating through patriotic motives during the war, has found its place in supplying the financial needs of ordinary people."

The supervision of the Alberta provincial police is to be taken out of the hands of a commission and placed under the direct control of a cabinet minister.

Seed SPUDS

Delivery April 16th

We have been fortunate in securing a car of potatoes containing ten tons of Gold Coin and four tons of Early Rose seed potatoes, balance good domestic gold coin stock. These will arrive on April 15th.

LOMOND, ALBERTA, APR. 11, 1919

NOTES

These rainy days bring out all the weak points in the roofs.

o o o

You would naturally suspect the farmer, as a class, to favor daylight saving—for it compels the town guys to get up an hour earlier in the morning.

o o o

The Canadian deserter is apt to come in for some severe handling, but it is the only fair thing to do when you consider what the boys that went had to go through with.

o o o

The man with a grievance seldom gains a satisfactory hearing. Perhaps that explains in part why the farmer's problem makes but little impression on the powers that be. The farmers must change their method of attack. They must develop a bland, sauve spirit of argument and discard this reckless ranting. It appears now that the manufacturers are getting nervous over the prospects of tariff reform, in fact to such a point that they are spending a few thousands on a newspaper advertising cam-

paign. One of the main points of argument is against the removal of protection on farm implements. They claim that this protection provides a government revenue of three millions a year—and how in Sam Hill would the government get this amount of money any other way? If the public swallows this gaff it deserves a protective tariff wall. To begin with, the farmer pays the three millions in tariff through buying foreign manufactured implements. Then he again pays tribute of three millions to the Canadian manufacturer, because the Canadian manufacturer demands the same price as the foreign manufacturer. Like the booze interests, the manufacturers hogged the entire boodle and invited the present war against themselves. The Canadian manufacturer has paid his labor a lower wage than the U.S. manufacturer and yet realizes around forty per cent more for his product. There is no particular inducement to the Canadian farmer to buy Canadian manufactured machinery, whereby if the retail price was reduced, say to correspond to fifty per cent of the protection, the increased demand for the Canadian product would provide employment for thousands more of Canadian laborers. If this money could thus be kept in circulation instead of being allowed to accumulate into the control of the few, Canada's prosperity would be phenomenal. Then again, if the government would confiscate the overages that the grain dealers realize every year (the spread between what the grain dealers pay for and what receive from the producers) the three million dollar item would be well taken care of. As far as we can figure we are paying this three million dollar item three times a year now, so surely we can afford to pay it once under a free trade policy. We have been paying too heavy a price for our rights of Canadian citizenship.

o o o

There is no doubt but what the acreage seeded to wheat in the Lomond district this year will easily surpass that of any previous year. On the other hand, the farmers are going in pretty strong for oats in an endeavor to overcome the persistent feed shortage. If good resolutions count for anything the days of the northern grass grower's bonanza are numbered.

o o o

Lomond IRA DONILY

An Exception to the Rule

A remarkable occurrence is chronicled about a young man by the name of Smoke, at Richmond, Ontario, near where the Auditor spent his boyhood days. When this young man was a mere child he lost his sense of hearing and power of speech as ill effects of measles. During the 'flu epidemic he became a victim of this common malady and since then has been gradually regaining his hearing and speech. This is one of the most remarkable illustrations of the unfathomable to come before the numerous physicians investigating the case.

The Parable of the Sower--- Up-to-Date

1. Behold the cougher went forth to cough.
2. And when he coughed, some germs fell upon the sidewalk, and the feet of the pedestrians came and gathered them up, and carried them into their homes.
3. Some fell into nostrils that were hard and unfruitful and forthwith a slight cold appeared. It was not worse because there was much opposition to them, on account of the sterility of the soil.
4. And when the sun came up these colds were scotched, and because they had no root these colds withered away.
5. And some fell in thorny places such as those that have an immunity, and in this wise were choked out.
6. But others fell into ground that was good for them, and brought forth much disease; some an hundred-fold some sixty-fold and some thirty-fold.
7. Who hath ears to hear let him hear and go forth to the Health Department and view the great harvest of pneumonia, tuberculosis, la grippe and bronchitis, all of which is on record in the archives of the Department.
8. Who hath ears to hear let him hear that over 10,000 of our people were garnered, during the year from our cougher and sneezer, and now sleep with their fathers in their untimely sepulchers.
9. Be not of those who, having ears hear not, and eyes see not the things that we have herein set forth that so nearly concern their temporal health and salvation.
10. Muffle the cough, smother the

sneeze and expectorate not in public places; to the end that divers and grievous disorders come not unto thee, nor unto thy neighbor.

11. And remember now the teachings of the Health Department that thy days may be long in the land which the Lord thy God giveth thee. — John Dill Robertson, M. D., Chicago Bulletin.

To Solve Canada's Employment Problem

EVERYONE in Canada should understand just what the Government is doing to solve the unemployment problems that may arise through the demobilization of our fighting forces.

(1) Employment Offices.

So that everyone—male or female, soldier or civilian—can get quickly such jobs as are available the Government is co-operating with the Provinces in establishing a chain of Public Employment Offices. Employers are being urged to make use of these offices to secure any help they need. Farmers, for example, who need hired men should apply to the nearest office. There will be a Public Employment Office in every town of 10,000 people—and wherever the need for one exists. There will be 60 different offices in all—one-half are already in operation.

(2) Employment Opportunities.

The war held up much work that will now be carried on at once. Public works, shipbuilding, roadbuilding, railway work—construction of bridges, improvement of road-bed, making of new equipment—these will provide new opportunities for employment. In addition, the Government has sent a Trade Mission overseas to secure for Canada a share in the business of providing materials and products required for reconstruction work in Europe. It has also set aside the large sum of

\$25,000,000 to be loaned through the Provinces to encourage the building of workmen's houses. This will mean much new work in the spring.

(3) Land and Loans for Soldiers

To help soldiers become farmers the Government has developed a programme that includes the providing of land, the granting of loans, and the training and supervision of those inexperienced in farming. At present, the soldier is granted, free, in addition to his ordinary homestead right, one quarter-section of Dominion lands. He also receives a loan up to the maximum of \$2,500.

These original plans are now being broadened. If Parliament passes the new proposals during this session, the Soldier Settlement Board will be able to buy suitable land and re-sell it to the soldier at cost.

Land up to the value of \$5,000 may be bought by this plan—the money to be repaid in 20 years. The low interest rate of 5 per cent. will be charged. These new proposals will also permit the Soldier Settlement Board to loan the soldier-farmer up to \$2,500 for purchasing equipment, etc., in addition to \$5,000 loan on his farm.

Spring's "SNAPPIEST" Clothes for Men...

ORDINARY fabrics and extraordinary words---little tailoring and much boasting --- a minimum of thought and a maximum of words---a lack of good taste and a lot of superlatives---these generally go together. Is it not so? And that is nonsense.

The only superlatives we know, and like, are the superlatives of Effort, Thought, Good Taste. These we have put into our clothing.

The men who plan our clothing are men of good taste. They know what successful, self-respecting men wish to wear. They are good judges of fabrics, of colors, of weaves, of patterns.

The tailors who make our clothing are trained to observe the niceties of workmanship that give a suit

character---they always keep the quality up.

It is an asset to be able to say that ---"We sell these clothes." For---whether you know it or not---many know how good these clothes are, for they are

Society Brand Clothes

---the national standard. They combine in the highest degree the three essentials of good clothing---good style, good fabric, good tailoring.

SMART SPRING HATS....

....SMART SPRING FURNISHINGS

The Frank Brown Company, Ltd.

"STYLE HEADQUARTERS"---Where Society Brand Clothes are Sold.

New Knitting Needle.

The newest sort of knitting needle is a strange-looking contraption that would have bewildered great-grandmother, one feels sure; but then she probably never dropped stitches. She had plenty of time to turn off the family mullers, eartabs and socks, whereas her great-granddaughter, having hurried through the process of learning to knit, feels that she must accomplish several sweaters and other knitted garments every month to keep up with the fashionable war-time pace.

The new knitting needle is a sort of boomerang affair --- it curves around and ends at its starting point. In other words, it is circular, its pointed ends meeting where the circle is cut through. The needle is made of amber composition, and is extremely flexible. One knits perfectly easily with the ends while the stitches, pushed around the circle as one proceeds, are never in danger of slipping off and being "dropped."

Grow More Potatoes.

Following the announcement made by Sir William Hearst some time ago that the farmers of Northern Ontario would be encouraged to grow potatoes for seed the first shipment of five carloads of New Brunswick potatoes is on its way. Observations made by the experts of the Ontario Agricultural College show that the best seed potatoes are grown in these northern districts. Representatives of the Department of Agriculture have gone through Muskoka, Parry Sound, Rainy River, Thunder Bay and Nipissing districts and the settlers have agreed to co-operate.

The plan is to have a number of settlers in each locality get together to insure the delivery of seed potatoes in carload lots, and to these groups the potatoes will be furnished by the Department at cost.

The Japanese carpenter planes and saws towards himself; a western carpenter works away from himself.

Worse Yet.

"My butler left me without any warning."

"There are worse things than that. Mine left me without any spoons."

Rubbing It In.

Harry Lauder turned up for supper at a Chicago club with a rose in his buttonhole. "Is that a new thistle you've got there, Mr. Lauder?" said a humorist. "Hoot, mon," said the Scot, "ony flower is a thistle to a donkey." When the laughter had died down, the humorist said: "After such a nasty one as that, Mr. Lauder, you might give me the flower." "Hech, what's the use?" said Lauder. "Ye'd only eat it."

THE STANDARD BANK

OF CANADA
HEAD OFFICE - TORONTO

TRUST FUNDS

Our Savings Department gives you a guarantee of absolute security and interest at current rate.

LOMOND BRANCH

C. H. ST. JOHN,

Manager.

Money

We have plenty of money to loan on improved farm lands. Interest at 8 per cent.

Have you secured your 1919 auto license? We have the forms.

The Lomond Realty Company

IT'S TIME TO RE-TIRE

Not in the old sense of meaning, but with good, new Goodyear, Diamond or Dominion tires. It does not pay to run on badly worn tires. It's hard on the nerves, the car and the pocketbook. The Ford Garage offers you exceptional tire service. We sell at the same price, put the tires on and then provide you a free air service----it's all yours for the taking.

WE CAN FURNISH YOU WITH STORAGE BATTERIES FOR ALL MAKES OF CARS.
BATTERIES RE-CHARGED, REPAIRED AND RE-BUILT

Ford Cars and Repairs

Auto Accessories, Tires, Gas,
Oils----Free Air Service.

New Price List on Parts

The Ford Company, by post-war conditions, is making a new repair price list which will mean quite a saving to the owners of Ford cars.

Repair Work

Mr. Donily has taken over the floor space in the rear of the garage and our patrons are invited to avail themselves of this service.

"Chevrolet" and "McLaughlin" Repair Parts

Stocked at Lomond and Travers.

The Ford Tractor

This is a machine you should investigate at once. Low in price---high in durability. Call in and get information on this "little wonder."

Acetylene Welding

---at the Travers Garage. We guarantee all our welding to be A-1.

MASSEY - HARRIS Implements

Seed Drills

I have just unloaded a car load of double and single disc seeders. The Massey-Harris seeder is notably a favorite in the West. Place your order now.

"Great West" Stubble Gangs

"Imperial" Gangs---Breakers and Stubble

"Golden Edge" and "Great West" Sulkies
in all sizes.

Disc and Lever Harrows

"Bayne" Wagons, a full stock

"Chatham" Fanning Mills

We have these mills in both hand and power sizes.

"Gray-Campbell" Buggies

---and Democrats, and we can take care of your extra and repair parts for this line of vehicles.

Fairbanks-Morse

"Z" Type Engines in 1½- and 3-h.p. sizes.

Power Washing Machines---the best and most convenient machine on the market.

Pump Jacks, etc., etc.

Samson Tractors

This staunch, powerful machine is a wonder in efficiency. It is built with a Red Seal Continental motor which is in itself a gilt-edged guarantee. If you are in search of satisfaction and economical farm power we would suggest an investigation of the "Samson" Demonstrators at both Lomond and Travers.

How does your Dollar stand?

Potatoes!

NOTE:—Owing to railway failing to deliver sacks, and bad roads in Manitoba, our car of potatoes was delayed. Expect car not later than April 22nd.

HATS

We have in stock a shipment of Stetson hats ordered by Marshall & Wilson, but owing to an error in shipping we did not receive until last fall. Buy a Stetson, but get our price before buying elsewhere.

BOOTS

Our stock is complete, including Stitch-downs for men, women and children, from \$1.80 TO \$4.00

In fine shoes we carry the "Invictus,"
"Just Right" and "Leader"

HIGHEST PRICES PAID FOR BUTTER
AND EGGS.

Elliott, Argue & Co.

Route Cards and Record Note Forms

To comply with the Act, stallion owners must keep cards posted at each stand showing the current year's enrolment. THE PRESS will print you these cards on short notice.
